

Stick with labs that deliver quality care at lower costs.

If you need blood work done, you may go to the lab associated with your doctor's office. But did you know that if you go to a national lab such as Quest Diagnostics® or Laboratory Corporation of America® (Labcorp), you can save up to 75% and still get the same quality service? And with hundreds of locations nationwide, they make it easy to get lab services at a lower cost.

Keep the cost of lab work low with Cigna HealthcareSM network labs:

Lab test	CPT code	Average cost		
		National labs	Professional/other outpatient lab	Outpatient hospital lab
General health panel*	80050	\$23.09	\$52.82	\$223.74
Complete blood count (CBC)	85025	\$5.64	\$12.58	\$60.17
Prostate screen (PSA)	84153	\$13.17	\$27.46	\$76.65
Strep throat	87650	\$14.48	\$18.39	\$71.02
Lipid panel	80061	\$9.57	\$23.76	\$65.75
Hemoglobin A1C	83036	\$6.94	\$15.14	\$45.57

Table shows the average costs for the stated lab services based on 2021 claim data. The average allowable charges were used for these calculations. Costs will vary based on the services provided, location, and benefit plan.

 To find a Quest or Labcorp lab near you, go to myCigna.com^{***} or call the number on your ID card.

Or contact the labs directly:

Quest: **800.377.7220** · questdiagnostics.com

Labcorp: **888.522.2677** · labcorp.com

*A general health panel consists of a comprehensive metabolic panel (CMP), a complete blood count (CBC) and a thyroid stimulating hormone (TSH) test.

**App/online store terms and mobile phone carrier/data charges apply.
